Finishes:

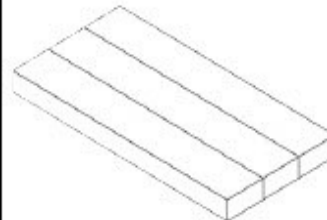

Clear Coat Finish: Your beautiful custom wood top has been carefully crafted and finished. Our Special Clear Coat Top Finish comes with an antimicrobial additive to help reduce bacteria from forming.

Our finish is very durable with low maintenance. It is available in Satin, Flat, and Gloss sheens. For cleaning simply use soap and water. Avoid bleach or ammonia based cleaning products.

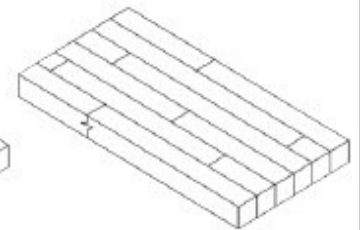

Oil Finish: Our Oil Finish delivers a deep, lustrous wood color. It is a time tested way to preserve the natural beauty of your custom wood top. An Oil Finish is suggested for any wood surface that is primarily used for food preparation. Proper maintenance and oil application will preserve your wood top for many years to come.

Build Style & Edge Profile:

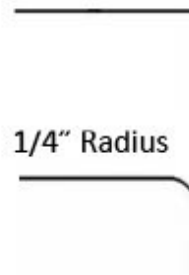

Plank Style

Butcher Block

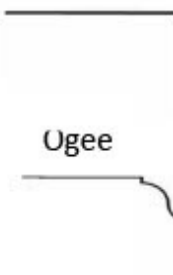

Square

1/4" Radius

1/8" Eased

Ogee
